

RF

SPECIALITY FOODS

Big batches. Soft landing.

A soft, confident B2B bakery experience

Four responsive pages / social proof / sample-led conversion

DESIGN DIRECTION

Warm enough to want. Clear enough to buy.

A bakery manufacturer has two jobs online: create appetite and remove doubt. This direction uses softness for the first and structured B2B information for the second.

01 Choose this when

The business sells at volume to cafes, restaurants, hotels, cloud kitchens, caterers, retailers or distributors - not only to individual consumers.

02 It communicates

Dependable supply, menu versatility and a human production culture without falling into a cold factory aesthetic.

03 It supports

Product discovery, sample conversations, catalogue requests, social proof and a credible path from first visit to buyer enquiry.

THE CENTRAL IDEA

Present manufacturing confidence as a calm service experience: consistent products, understandable choices and an easy next step.

SOFT CONFIDENCE

A visual language built for appetite and trust.

TYPE

DM Serif Display

Emotional, editorial and appetising.

Big batches.

Manrope

Operational clarity and compact detail.

REQUEST A SAMPLE

UI BEHAVIOUR

Bubbly geometry

Rounded image masks, pill controls and generous curves make industrial scale feel friendly.

Editorial rhythm

Large type alternates with compact operational copy so the site feels premium but easy to scan.

Gentle motion

Reveal transitions, hover lift and a sticky header add polish without slowing procurement tasks.

Clear actions

A persistent sample-request drawer gives every page the same conversion route.

FOUR CONNECTED PAGES

Everything a buyer needs, without the catalogue sprawl.

HOME

01

A complete front-door story Hero, partner types, product highlights, sample-to-supply process, Instagram preview, about story and testimonial preview.

PRODUCTS

02

Three menu heroes

Brownies, cheesecakes and cookies get dedicated narratives, with supporting lines for cans, premixes and sauces.

ABOUT

03

The calm behind the menu

Manufacturing story, values, partner types and operational confidence, using a realistic production image.

TESTIMONIALS

04

Proof with integrity

An honest concept for collecting and displaying verified buyer proof; every current quote is clearly marked as placeholder copy.

EVERY PAGE

Shared navigation + mobile menu + sample drawer + demo-only data notice

FROM CONCEPT TO LIVE SITE

What to confirm before production.

01

Product specifications

Confirm pack sizes, MOQ, shelf life, storage, service format, delivery region and commercial terms.

02

Verified proof

Replace all placeholder quotes with approved customer names, roles, logos and exact statements.

03

Conversion setup

Connect catalogue/sample forms to email or CRM, add validation, consent copy and success tracking.

04

Brand and compliance

Confirm contact details, legal pages, food/manufacturing claims, privacy and final image licences.

05

Launch QA

Optimise media, test accessibility and mobile performance, and validate Instagram framing on the production domain.

RECOMMENDED NEXT STEP

Approve direction, then run a content and product-data workshop.
